

# Our Immediate Priorities

By the end of July 2023, we aim:

To further develop our vision for a bespoke curriculum that is broad and balanced and involves all community stakeholders, reflecting our local context.

To improve confidence and raise standards in oracy (English and Welsh) through the development and implementation of an oracy rich approach to teaching and learning

To further improve standards in reasoning for all groups of learners in Mathematics and Numeracy both within the AoLE and across the curriculum.

To further develop our School and Triad as a Learning Organisation in order that effective pedagogy ensures high quality learning experiences for all learners

Ambitious, capable  
Learners

Enterprising, Creative  
Contributors
